This course is a great way to prepare for your GCSE exam and to boost your confidence.

In the 6 hours of specific GCSE preparation, the teachers will concentrate on the main aspects of the GCSE syllabus with a special focus on grammar and written comprehension and expression. Our active methods in general group classes along with the everyday life within a French family will improve your oral expression and will strengthen your knowledge of the French language.

Students must have turned 16 and parents will need to fill in an authorisation form if they allow their children to go out in the evening on their own.
